CERTIFICATE OF DATA DESTRUCTION

Job Number: [REDACTED]

Client: [REDACTED]

Collection Site: [REDACTED]

Collection Date: [REDACTED]

**DATA
ERASED**

Assets 100%
Secure

This Certificate of Data Destruction has
been issued to:

[REDACTED]
as formal confirmation that all assets
disposed of under job reference # [REDACTED]
have undergone complete and
irreversible data sanitisation.

Data Erasure and Software Destruction

G1 Asset Management acknowledges receipt of the data-containing assets listed in the attached register, and confirms that assets listed have been securely and irreversibly software-wiped or physically destroyed. Relevant data-containing asset classes include but are not limited to mechanical hard drives, solid state drives, flash storage devices, mobile devices, networking equipment and any other data-containing assets or data storage media.

All functional data-containing media has been erased using methods that meet or exceed NIST 800.88 and DoD 5220.22-M standards and are compliant with Australian Government Information Security Manual (ISM) controls, rendering all data contained as irrecoverable. Where media is non-functional or unable to be verified under such software erasure methods, media has been destroyed by means of physical destruction, rendering all contained data irreversibly unrecoverable.

CERTIFICATE OF RECYCLING

Job Number: [REDACTED]

Client: [REDACTED]

Collection Site: [REDACTED]

Collection Date: [REDACTED]

Weight Recycled: [REDACTED]

This Certificate of Recycling has been issued to:

[REDACTED]

as formal confirmation that the assets disposed of under job reference # [REDACTED] have been recycled in accordance to nationally accredited recycling standards for the decommissioning of electronic waste (e-waste). As a result of this recycling initiative, zero electronic waste has been transferred to landfill, promoting environmental sustainability and responsibility.

Environmental Sustainability & Governance

G1 Asset Management promotes the sustainable management of end-of-life materials and certifies that all assets disposed have been recycled in full accordance with modern ISO-approved standards and all relevant government legislation.
