

Data Destruction Certificate

Lumon Industries

Issue Date: 10th October 2023

Job Number: 12345

Site: 1 Infinite Loop, Sydney NSW

This certificate has been issued by G1 Asset Management as formal confirmation that all assets and equipment received under Job Number 12345 have undergone complete and irreversible data sanitisation in accordance with NAID AAA and ISO 27001:2022 Data Security Standards. All data destruction performed satisfies the requirements of the Australian Government's PSPF Framework and ISM Security Controls.

Blancco Secure Software Erasure

All storage media contained without assets have been securely erased using Blancco Secure Erasure Software where possible. This software is certified by the National Cyber Security Centre (NCSC) and is approved for use by the Australian Signals Directorate (ASD).

Shredding & Physical Destruction

All devices and media not erased using Blancco have been physically destroyed using shredding and/or crushing equipment. This equipment is certified by the National Association for Information Destruction (NAID).
